Facebook

It's conclusive – childhood trauma caused by sexual, physical, emotional abuse or neglect 'changes the brain' in ways that impact a child's ability to form strong relationships and be the 'boss of their feelings'.

The objectives of this seminar are:

- To understand the impact of trauma on our psychological, physiological and spiritual being
- To develop an ability to read the 'signs' of trauma
- To reflect on the ways in which healthy attachments are impacted by trauma
- To explore what to do and when to do it or develop strategies to ease the impact of trauma
- To reflect upon approaches to healthier attachments
- To learn about 'self care' when in the presence of a child's expressed or repressed distress

Suitable Audience:

- Carers & workers from foster, permanent, residential, adoptive & kinship care
- Family service workers
- Child protection workers
- Case managers
- Youth Justice
- Teachers / teacher's aide
- Student welfare / wellbeing professionals

Nick Grainger has a 10 year background of working with children, young people and families within the out of home care sector. Nick has considerable experience working with vulnerable and high-risk young people in residential and educational settings and is recognised for his calm and compassionate approach. Nick has a particular interest in the educating and skilling of people and has continued to work in the education sector as a facilitator and directly with schools regarding the effects of trauma. Nick also has extensive management experience in the not-for-profit sector, overseeing re-structuring of residential care, adolescent community placement and lead tenant programs.
