Reflective practice is more than just thinking, it is the development of a personal practice approach that integrates one's professional and life experiences into daily practice. It is a psychological training regime that is meditative in its focus, and ultimately provides best practice. Whilst at times it can be challenging it provides the best opportunity for excellence in practice.

## **Skill Bite Objectives:**

- To explore the key elements of reflective practice
- To develop protocols for its use in teams and supervision
- To understand how it may be used as a tool when working individually with harmed infants, children and young people
- To adopt reflective practice when in stressful and chaotic circumstances
- To learn how to enhance your reflective practice skills on a weekly basis

## **Suitable Audience:**

- Carers & workers from foster, residential, permanent, adoptive and kinship care
- Family service workers
- Child protection workers
- Teachers / teacher's aide
- Student welfare / wellbeing professionals
